**Re: Docket 05-337 – USF**

Dear Commissioners,

We are writing to respectfully request that the Commission adopt rules to include wireless broadband services and VOIP within USF eligibility.

Our Nation is located on the Osage Reservation in Osage County, Oklahoma. We have approximately 10,000 tribal members. For many decades, our members have lacked adequate telecommunications services. Our Nation has an opportunity to provide wireless broadband telecommunications services to our members. However, our members cannot afford these services without USF support.

Please help our Nation have access to telecommunications services by expanding coverage of the USF to wireless broadband and VOIP services.

Respectfully,

A handwritten signature in black ink, appearing to read "Jim R. Gray", is written over the printed name and title.

Jim R. Gray  
Principal Chief
